Bosch Sensortec is launching a longevity program and expanding its product portfolio to meet the specific needs of industrial applications. By ensuring products will be available for ten years, this new program will give customers peace of mind, as well as access to high-performance, robust sensors, and increased purchasing flexibility due to smaller reel sizes.

Bosch MEMS Technology | Bosch Sensortec

The NO_x sensor can be used for 12 V and 24 V applications in passenger vehicles as well as light or heavy commercial vehicles (on and off-highway). The sensor consists of a probe and a sensor control unit (SCU) connected to one another via a wiring harness. The probe is quick and easy to install thanks to a retaining screw.
