### Engine Ecu Map

ECU takes input from sensors and processes it to give output. Car manufacturers make this map keeping in mind the reliability, emission norms, drivability, and quality of fuel. This often means that these ECU maps are quite conservative and a lot more power can be extracted from the same engine by uploading a new map.

The ECU shuffles through the tons of data that come to it in the form of readings to decide the course of action that should be taken by the engine to ensure an ideal drive. The ECU tells your engine not only what to do but also how to do it. Thus the ECU in order to make accurate diagnosis on engine control utilizes stored data.
