Roberts makes a breathtaking array of sets, but the odd thing about this 20+ line-up is its inconsistency. You'll find poor-quality two-star performers rubbing shoulders with five-star class-leaders. In a real sense this is one brand where you never really know what you'll get. Fortunately the stereo MP-23 table radio is one of the good ones.

I've got the MP23, had it about a year and am perfectly happy with it. I have it in my study/bedroom, the sound quality is pretty good and quite loud enough for general use. It does what it says very well. Plays CD, MP3-CD, MP3 files on SD card (up to 2GB) and USB stick, and the alarm function is great.

The Roberts MP-23 is indeed a great all-round DAB/FM/AM/CD/SD/USB player, alarm clock etc, and line inputs and a digital output for connecting external hardware. Not much it doesn't do really, apart from record. I'm listening to mine right now in fact. I'd snap one up for half price, for sure.
