Several key concepts underlie Gestalt Therapy, many of which are similar to that of person-centred and existential therapy. However, what does differentiate Gestalt Therapy from these therapies are some of the ideas added by Perls and associates as well as distinctive therapeutic techniques that will be covered further down (Seligman, 2006).

Systems theory can be an effective way to evaluate and develop solutions for mental health concerns among individuals. In systems theory therapy, the focus moves away from problems with the individual and instead challenges group members to be aware of how their actions and reactions influence everyone around them.
