In general, the law defines property as rights⁴among people⁵that concern things. In other words, property consists of a package of legally- recognized rights held by one person in relationship to others with respect to some thing or other object. For example, if you purchased this book, you might reasonably believe that you own “the book.”

"Understanding Property Law" by John G. Sprankling

When most people think of "property," they imagine something tangible, such as real estate, jewelry, or computers. But intellectual property confers legal rights in intangible form. The three primary types of intellectual property are copyrights, trademarks, and patents. Each of these protect very different types of work, and it is important to learn the differences between them before determining whether you might qualify for protection.
